

PRESS RELEASE

FuelCellsWorks.com Appoints CREAS Energy Consulting as their Exclusive Consulting Partner

MONTREAL (Canada) – January 13, 2021 – FuelCellsWorks.com (FuelCellsWorks) the leader and number one news and media provider in the fuel cell and hydrogen industry, announces it has expanded its service offering to include specialized consulting services in the energy transition sector in order to accelerate the adoption of fuel cell and hydrogen technologies worldwide.

The partnership with CREAS Energy Consulting (CREAS) specializes in providing project development support to the worldwide energy transition efforts as well as assist in the development and establishment of a global hydrogen-based economy, primarily through engagements with Governments, Operators, Project Developers, Investors, Banks, and Funds.

The combined forces of FuelCellsWorks and CREAS bring together professionals that have extensive experience developing projects that are technical, environmental, strategic, and conscious of the current market economies. Our joint resources will leverage FuelCellsWorks' extensive market knowledge and databases in energy transition technologies through the development of projects to support FuelCellsWorks' customers in their current and future initiatives.

To get started on your energy transition project you can contact our specialized consultants at: consulting@fuelcellsworks.com or you can visit us at <https://fuelcellsworks.com/consulting/> to learn more about our services and fill out the project request form.

About FuelCellsWorks

Over the last 22 years, the team at FuelCellsWorks (fuelcellsworks.com) has been gathering, writing, and bringing our global community the most relevant and up-to-date news and information on the global state of the Hydrogen and Fuel Cells industry. With a team of professionals focused on accelerating the adoption and creation of a worldwide Hydrogen Economy, our mission is to ensure that our content is easy to understand and widely applicable to the FuelCellsWorks community and beyond.

About CREAS Energy Consulting

CREAS Energy Consulting was founded in 2019 with the mission of providing market-leading strategic, technical, commercial and environmental support to energy-to-chemical companies in their efforts to shift to more sustainable operations, enabling them to transform into clean energy hubs. CREAS provides energy industry expertise, strategic, technical, commercial and environmental advice to banks, lenders and investment funds seeking sustainable investments and acquisitions in the energy-to-chemicals sector. CREAS specialists have more than 20 years' experience in the energy-to-chemicals sector.
